

Team and Company Evaluations

After picking up your students' evaluation, read the information below. This is an explanation on where a student should be throughout the year. We have also listed options to guide you to supplement your dancers training.

ON LEVEL- If your dancer is "on level" this means he/she is on track to moving up 1 level next season. The expectations of the team increases throughout the year. If your student reads "on level" on all three evaluations, this means he/she is progressing at the proper rate.

ABOVE LEVEL- Dancers may be above level in one area and below in another. This is very common. When supplementing your dance schedule, focus on those areas that need improvement.

BELOW LEVEL- It is common for dancers to learn at different rates, being below level in 1 or 2 areas is not cause for alarm. If your dancer is struggling in more than 2 areas, you may want to consider supplementing your dance schedule.

SUPPLEMENT YOUR SCHEDULE- All skills are numbered. Find the corresponding number below to guide you in deciding how to supplement your schedule.

The following table will help you supplement your students schedule if needed. Each item on your evaluation is numbered, find the corresponding number below under the column "skill #". An option is listed designed to help with that skill including instructions on how to register for such a class.

OPTION	SKILL #	HOW TO REGISTER
Additional ballet class	1,2,3,4,9,10	Register in office
Additional technique class	1,2,3,5,6,7,9	Register in office
Master Classes	8,10	Register online "Master Class" Tab
Specialty Classes	varies	Register online "Master Class" Tab
Private lesson	ALL	Contact instructor of choice

Note: We will notify teams when Master Classes and Specialty Classes are offered via email, with recommendations of who would benefit from what classes and which skills will be focused on.
